

# Freedom to Marry Day!

Chicago's Catholic Archdiocese, headed by Cardinal George, led the fight to try to stop civil unions for LGBT people in Illinois. He tirelessly lobbied to block our full equal rights.

"Everyone has a right to marry, but no one has the right to change the nature of marriage."

# 2011

... But *fortunately* marriage *does* change. Wives are no longer the virtual property of their husbands and interracial couples can marry. The fact is, though, that George and the Catholic hierarchy fought to deny us even civil unions!

For too long anti-LGBT religious groups (Catholic Charities, the Salvation Army, Catholic and other churches) have gotten off scot-free with their bigotry. They've taken in millions of dollars from us taxpayers, gay and non-gay alike, without being required to commit to equality in employment and other areas.
